CITY OF RIVERSIDE
PUBLIC UTILITIES

We Share with others

Riverside Public Utilities is proud to be owned by the community it serves; and we are equally as proud to be able to offer programs and services that help to enrich the lives of our customer-owners. That includes providing support for those in need through our Sharing Households Assist Riverside Energy (SHARE) Program.

Open to qualified low-income residents, SHARE helps out with utility deposits and bill pay assistance. While the program runs partly with state-mandated Public Benefits funds, volunteer contributions by fellow customer-owners of RPU help to extend the program's outreach greatly every year.

Help us help others by filling in the box marked "SHARE Donation" at the bottom of your utility bill with your contribution amount or round-off your bill to the nearest dollar. Your donation will help assist qualified, low-income residents in the City of Riverside.

do you know?

Riverside Public Utilities customers can get great rebates on a variety of ENERGY STAR® rated appliances that use less energy and water and can help lower utility bills.

To find out more on these rebates, go to **GreenRiverside.com**.

ON AIR

The GREEN POWER REPORT radio show is more than just about living green; it's about living more efficiently, and saving money too! Actor Ed Begley Jr., actress Daryl Hannah, physicist Amory Lovins, and Pulitzer winner Ed Humes are just some of the past guests. Tune-in Monday nights at 6:30 on KTIE 590 the Answer or if you missed an episode, they're all online at **GreenRiverside.com**.
